Experience

Panera Bread, Digital Strategy and Web Operations, 2012 – Present

Strategic direction of all design and development projects; provide leadership for research, strategy, UX and UI design, technology platforms, and Google Analytics for panerabread.com.

Key Accomplishments

- Delivered comprehensive new customer-centric site strategy using analytics insight to define moments that matter, strategic intent, key tactics, and key performance indicators.
- Development, deployment, and integration of Adobe Experience Manager content management system.
- Spearheaded work resulting in a 26% increase in sessions, 24% increase in users, 60% increase in average session duration, and a drop of 1.37% in the bounce rate.

Panera Bread, Marketing Services, 2007 – 2012

Cross-functional marketing and creative direction leadership for Catering, Loyalty, Field Marketing, Retail Advertising, Public Relations, and Bakery-Cafe projects.

Key Accomplishments

- Led creative development and marketing implementation for Panera Cares™ under direct supervision of CEO and founder Ron Shaich.
- Directed development, deployment and promotion of a web-based, template-driven asset management system to improve local marketing through application of national brand standards generating a 375% increase in approved, brand-sanctioned marketing collateral.

PARTNERS+simons, Creative Services, 2007 – 2007

Managed delivery and execution of coordinated, multi-channel marketing campaigns comprised of print, online advertising, website development, out of home, and broadcast media for clients including Blue Cross/Blue Shield, Sovereign Bank, Genzyme, and others in the health care and financial industries.

Vertis Communications, Global Retail Marketing, 2004 – 2007

Directed creative development and production of materials in support of L.L. Bean's catalog, retail and e-commerce business, as well as support resources for all layout and photography deliverables.
